

Student Management Solution Benefits

The Future is Student Centric

Successful educational institutions today recognise the need for core management systems to help drive shifting organisational priorities, and all whilst managing the growing demands for exceptional student services.

To address these complex and competing challenges, it is vital that your institution have a software solution that provides real time, integrated information that drives the organisation as well as your strategic and operational decision making.

TechnologyOne's best in class, market-leading solutions work together as *one* 'out of the box' solution with *one* user interface. You get organisation-wide benefits and seamless integration of all our solutions which include: Student Management, Financials, Budgeting, Human Resources & Payroll, Supply Chain, Business Intelligence, Property & Rating, Performance Planning and Works & Assets.

Arm your institution with the tools to proactively manage a complex and increasingly student-focused array of services.

Enable Your Staff and Students

TechnologyOne's *Student Management* solution gives you instant information transfer and retrieval and provides an active, role-specific workplace that can produce task alerts and integrated business intelligence, such as key performance indicators and all within a workflow engine designed to streamline the task at hand.

That's the power of our awesome software!

Benefits of the TechnologyOne Student Management Solution

A TechnologyOne *Student Management* solution will provide the following benefits to your institution:

Proactive Management of the Student Lifecycle

TechnologyOne's *Student Management* solution puts your institution in a strong position to capitalise on each stage of the student lifecycle. From a student's initial search for information to ongoing dialogue with graduates, TechnologyOne *Student Management* enables your institution to transform its long term strategic focus and competitive advantage.

A Student Centric Approach

The ability to quickly get the information you need is a major strength of all TechnologyOne solutions. Our superior reporting and enquiry capabilities deliver you and your stakeholders fast and meaningful intelligence, and with direct integration with Office products such as Microsoft Outlook, Excel and Word, you gain significant productivity advantages.

Long Term Cost Benefits

The lower total cost of owning a TechnologyOne *Student Management* solution is driven by our ongoing commitment to improvement through partnership with our customers, a strong commitment to R&D and our evolutionary approach to delivering the latest technology. Additional features and functions are applied uniformly at our R&D labs to ensure that there are no costs associated with retaining or re-applying modifications when upgrading to new releases. This makes upgrading significantly faster than other competitive offerings.

Flexibility to Meet Changes in Reporting and Legislative Requirements

TechnologyOne *Student Management* solution has the inbuilt flexibility to adapt to changing government regulations and we have a proven track history of producing software that exceeds these requirements.

Innovative Ways to Communicate with Stakeholders

In an increasingly self-service, student-centric environment, *Student Management* enables you to share information in real time across a dispersed organisation, as well as integrate with mobile devices, websites and other products for data sharing and delivers superior services for staff members, academics and students.

Operational Efficiencies

With our 'roles and workplaces' approach to all our software, users work with a rich and intuitive interface which empowers them with daily tasks, personal workflow, alerts, announcements and portlets. And rather than having the software's view of the world forced upon work practices and process, workplaces can be individualised by each team member.

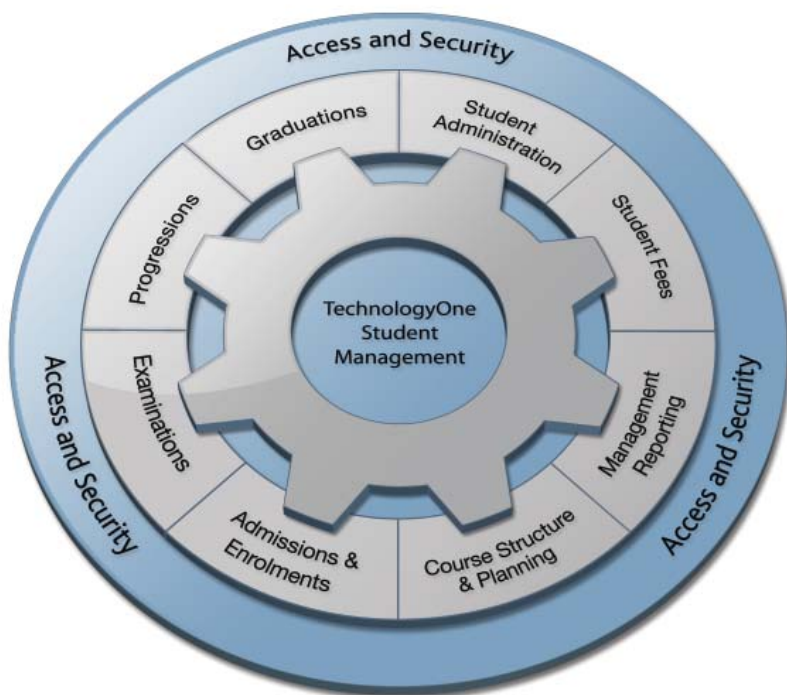

Better Knowledge of the Factors Affecting your Institution

Combine TechnologyOne's *Student Management* with our *Business Intelligence* solution to make informed decisions and monitor your institution's and/or department's performance. Driven via alerts, dashboards, ad-hoc reports and enquiries, you gain the ability to monitor your performance indicators and be more proactive with better trend analysis, and in turn, deliver greater efficiencies.

One Comprehensive Solution with TechnologyOne

The TechnologyOne *Student Management* solution has a module to cover all your institution's requirements. Tailor a solution specific to the needs of your institution with our comprehensive range of core and optional modules.
