

TechnologyOne

OneAirport

a solution for airports

OneAirport is a pre-configured comprehensive end-to-end solution that provides organisations with a single and highly functional platform for the management of corporate, people, asset, property, stakeholder and strategic management processes.

TechnologyOne's OneAirport solution is designed to streamline business processes and deliver consistent and secure information to enhance the user experience.

One integrated solution

While undertaking a number of disparate activities such as developing sustainability strategies, asset and facilities management and risk management, forward-thinking airports must gain a competitive advantage through more efficient systems and infrastructure.

Property Management

Airports are becoming increasingly involved in the management of properties, including property development, commercial and industrial leasing and billing. Drive facilities management capabilities with a totally integrated system that provides a clearer view of your asset portfolio.

Safety

Provide a workplace where health and safety management and leadership is integrated into core business activities.

Stakeholder expectations

Deliver instant service and access data anywhere, at any time, to meet information demands from the community, property owners and other stakeholders.

Manage people and culture

Effectively manage human resource functions and employee development. Allow employees to monitor payroll information, leave entitlements, training and development information online, at any time.

Manage risk and sustainability

Effective planning and sound decision-making reduces organisational risk and ensures the long-term sustainability of your business.

Management of assets

Gain a complete view of the asset lifecycle. Manage infrastructure assets, save money and improve maintenance scheduling and completion. Deliver new infrastructure projects on time and on budget.

OneAirport enables you to...

✓ Manage regulatory and compliance issues	✓ Simplify works and projects to improve planning and asset reliability	✓ Control risk and sustainability
✓ Improve the budgeting processes and deliver effective financial management	✓ Allocate resources where they are needed most	✓ Enhance recruitment and retention through better staff management, training and certification
✓ Enhance capacity to plan rather than react to facility and fleet related requirements	✓ Easily manage and track all engagements pertaining to the management of rent, tenancy and property	✓ Optimise asset management planning and improve asset reliability performance
✓ Deliver improved asset and project management	✓ Increase transparency and visibility between departments	✓ Facilitate communication and interaction with stakeholders

Ci Anywhere

Any device. Any where. Any time

Ci Anywhere is a simple and evolutionary path for our customers, embracing a range of smart mobile devices and consumer concepts to deliver powerful enterprise software that is incredibly easy to use.

Our approach

Our enterprise vision

The power of a single, integrated enterprise solution

We design our software for your entire enterprise. With a common look and feel, a common technology platform and true integration across all functionality, you benefit from reduced costs, streamlined processes and a more simple way of running your business.

Market focus and commitment

Preconfigured enterprise software solutions reduce time, cost and risk

A deep understanding and engagement with our seven key markets means we can deliver to our customers integrated, preconfigured solutions that provide proven practice, streamline implementations and reduce time, cost and risk.

The power of one

One vision. One vendor. One experience.

When you invest in a TechnologyOne solution you benefit from a direct relationship with us every step of the way. We do not use implementation partners or value-added resellers. We take complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer to guarantee long-term success.

The power of evolution

An enterprise solution that adapts and evolves

Substantial investment into R&D each year means we provide our customers a strong, continuing competitive advantage through an enterprise solution that adapts and evolves by embracing new technologies, concepts and innovation.

Simplicity, not complexity

Enterprise software, incredibly simple

Software that embraces consumer concepts and expectations to deliver solutions that are incredibly easy to use and remove complexity.

UTL003-0614

TechnologyOne (ASX:TNE) is Australia's largest publicly listed software company, with offices across six countries. We create solutions that transform business and make life simple for our customers. We do this by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,000 leading corporations, government departments and statutory authorities are powered by our software.
